Niche-Tech Kasier (Shantou) Limited Obtained The SGS Annual Audit of Three Management Systems in 2018

(Hong Kong, 9 July 2018) – Niche-Tech Group Limited (“Niche-Tech” or the “Company”, with its subsidiaries collectively referred as the “Group”; HKEx Stock Code: 8490.HK), a leading semiconductor packaging materials manufacturer, is pleased to announce that the Group’s subsidiary Niche-Tech Kasier (Shantou) Limited has recently passed the SGS annual audit of three management systems (ISO9001, ISO14001 and OHSAS18001) in 2018, and the certificates continued to be valid.

In recent years, Niche-Tech Group Limited has kept putting efforts to strengthen internal management, strictly control product quality, improve staff quality, establish corporate culture, and continuously enhance corporate identity and seize market share. In 2008, the Group’s subsidiary Niche-Tech Kasier (Shantou) Limited obtained the SGS three management systems certifications for the first time, and successfully passed the 2015 version of the quality management system and environmental management system in 2017.

On July 2, 2018, Niche-Tech Kasier (Shantou) Limited successfully passed the SGS annual audit and continued to maintain the quality management system, environmental management system and occupational health and safety management system (referred to as the three management systems).

Future Plans

Niche-Tech has always been adhering to the customer focus, providing products and services that meet customers’ needs in a timely manner. It plans to carry out the intellectual property management system in August 2018. The system is based on the strategic enterprise management, from the management concept of enterprise intellectual property rights, organization management, management model, personnel management, system management and other aspects are regarded as a whole. The system program that defines and strives to fulfill the missions of enterprise intellectual property rights is to maximize the benefits of intellectual property rights of enterprises, thus gaining competitive strengths for enterprise and achieving enterprise mission.
